Perfect location perfect apartment

This is a fantastic apartment. The location is perfect: 30 seconds from Ponte Vecchio but, because it's on the 7th floor and is above the nearby roofs, perfectly quiet.

The owners are very nice and were extremely helpful before and during our stay. Both have worked in the luxury hotel business for years so they really know what they're doing. They are very well connected and many resources available should you need any help - you could not be in better hands if you stayed in the nicest hotel in town.

The kitchen is well equipped, the living room / dining room area is big and well furnished, and the two terraces are great - they are both exclusively for this apartment and the larger one is completely private with no neighbors in sight.

Before we arrived we wondered if the apartment could be as good as it appears in the pictures; in fact it is better, bigger and nicer.

We want to stay here again and will recommend it to friends and family members going to Florence enthusiastically.

The apartment is right behind this building, top floor.
